

garden loop = .9 mile

The garden loop is a .9 mile walk through the gardens around the campus. Begin at A0, walk through the garden and into building A1. Go left down the hallway, exiting to walk across the putting green to the main walkway. Continue left up the main walkway and go right through the Seating Garden, enjoying the California Sage. As you exit go right and continue up the stairs to the A9 East and West buildings. Make a loop around A9 East enjoying the planters and trees along A10 and A11. At the North end of A11 go left into our shady Jurassic Park and continue toward the LA Fitness building. Use the crosswalk at the parking structure to walk through the garden at A11 and down the brick path at A10. As you enter the Oval Mall, take a lap around the center planters and complete the loop on the pathway back toward the Splash Garden across from A0. The loop can be started at any point on the path.

- 1 THE ESPLANADE
- 2 ST ANDREWS GREEN
