

rainy day loop = .4 mile

The rainy day loop is a .4 mile walk throughout the tunnels and protected areas of the campus. Start on the lower level at A0 walking down the lower level tunnel toward building B1. Make a right at the second tunnel which takes you down and around to the lower level of building A10. Take the first right in A10 down the hall, turn left to loop around the lower level. Once you make the full loop, turn right to take the tunnel to A9 West. Make a right into the A7 tunnel and head back to the courtyard buildings. Here, take the elevators to the first floor and exit right to the stairs at A3 where you can begin again.
